Terrain

This route follows a well-maintained but naturally uneven coastal path, which can get muddy after heavy rain. There are slopes to negotiate, as well as cliff edges and mineshafts.

Total steps: 6

Start point: Car park at St Agnes Head. Grid ref: SW702514.

1. From the car park, head along the path that leads in a north-easterly direction. Follow it down to the coast path.
2. When you reach the coast path, turn left and walk in a westerly direction.
3. Continue along the coast path as it passes underneath the National Coastwatch Institution (NCI) lookout.
4. After a slight incline, you'll reach a network of paths that lead back around to the car park. Looping back on yourself, take the path to the inland side of the one you've been on.
5. Head in an easterly direction along the path, through the car park and then past the NCI lookout on the left. This path then joins a tarmac road.
6. Continue along the tarmac road to the car park you set out from.

End point: Car park at St Agnes Head. Grid ref: SW702514.
